Commanding Officer  
Naval Facilities Engineering Command  
Western Division  
ATTN: Richard Powell (1811 RP)  
PO Box 727  
San Bruno, CA 94066

Dear Mr. Powell:

As you are aware, EPA has been conducting an ongoing oversight sampling program at Hunters Point. Because we need a long lead time to schedule laboratory analytical services, it is necessary that we try to schedule our split sampling events as far in advance as possible (preferably six weeks in advance).

In order that we can best accommodate the Navy's own schedule for field activities, we have endeavored to work our schedule around yours. Last March, we received a general schedule for the following events, but have not as yet received confirmation of the final schedules:

- (1) OU III - Round 2 ground water sampling - August, 1991;
- (2) OU V - Round 1 ground water sampling - June/July, 1991;
- (3) OU IV - Round 2 ground water sampling - July, 1991.

To facilitate our oversight efforts and minimize disruption of your field activities schedule, we request that you provide us with a confirming schedule for the above activities within 10 days. If for some reason this is not feasible, please call me at (415) 744-2388.

Sincerely,

A handwritten signature in black ink, appearing to read "Chuck Flippo", with a horizontal line drawn through it.

Chuck Flippo  
Remedial Project Manager
